

CS

$$h_D = 7.6 - 0.75 = 6.85$$

$$h_S = 0.75 - 0.02 = 0.73$$

$$Q^D = 20,000 - 1,000P$$

$$6,000 = 20,000 - 1,000P$$

$$0 = 14 - P \Rightarrow \boxed{P = 14}$$
